

MAKE THEM HEAR YOU

NOTES for EVERYONE:

1. The sections overlap on purpose. So please end each section as directed.
2. ALWAYS leave 3-4 sections of silence after you end a section BEFORE clicking the stop button.
3. PAGE TURN NOISE cannot be edited out! Perhaps you can set up single sided pages for each section – most are fairly short.
 - a. Other noise issues include, but are not limited to:
 - i. House fans, air conditioner hum, cars honking, dogs barking, rain hitting the roof or windows, etc.
 - ii. NO place will be perfectly quiet, so just do your best!
4. For final high note (especially for Soprano 1 and Tenors):
 - a. if putting the final “N” on the word, “again,” causes the pitch to change, drop the “N” and end the note by breathing in instead of closing your mouth.
5. All of the directions are below.
 - a. I chose these sections specifically to give everyone the best opportunity to get the breathing correct. Yes, it took me several takes to get it right!
6. At the end of the directions for each voice part, there is a link for uploading your 8 or 9 files. Please send them as you do them rather than waiting until they are all done and then sending them all at once.
